Professional Summary

I am dedicated to **improving human lives** through a **beautiful combination** of hardware and firmware.

I am **hungry for best practises**, with a commitment to **continuous learning** and personal growth.

I have a **proven problem-solving** mindset, and leave things **better than I found them**.

I am an effective **communicator & collaborator**, leading multiple **top university design teams** to success.

I am an **asset to any team**—I don't make promises I cannot keep.

Education

Bachelor of Engineering (Honours)

The University of Auckland

2021 – 2024

- Part IV **Computer Systems Engineering**
- Cumulative GPA of 8.4/9.0 (**A – A+**)
- Student Representative and **Teaching Assistant**
- Dean's Honours List (top 5%)

Technical Skills

Firmware & Embedded Systems

- Experience writing **C and C++ firmware** for **Atmel megaAVR** and **ARM Cortex** processors
- Hands-on with **bare-metal**, **FreeRTOS**, and Freescale MXP RTOS
- Passion for **best practises**, robust **architecture**, and thorough **documentation**
- Strong debugging skills with extensive **oscilloscope** and **logic analyser** experience
- Experience writing **unit & component tests**
- Development experience on **Linux, macOS, and Windows**
- Familiarity with **digital processor design** and specification
- GPIOs
- UART, SPI, I2C
- Control systems
- Basic HTTP/S
- ADCs & DACs
- OS concurrency
- Makefiles
- Basic USB
- Timers & PWM
- POSIX RAIL
- *nix CLI
- Basic JTAG

Power & Analogue Electronics

- Circuit & PCB design** learnt through practical application
- Wireless **inductive power transfer** and power electronics familiarity
- Parts selection and **board bring-up** design experience
- Extensive **hands-on** experience with **soldering** and **instrumentation equipment**
- Fluency with **LTspice** and **Altium Designer**
- Designed and built the **third-fastest IPT** RC car out of 21 teams in **ELECTENG 734: Power Electronics**

Git/GitHub

- Fluency with **feature branches**, pull requests, issues, and GitHub Actions
- 7400+ contributions** accrued over the past **6 years**

Other Languages On top of **C/C++**, I am fluent in **TypeScript/JavaScript**, and have experience with **MATLAB**, **Python**, **C#**, **Java**, **VHDL**, and **MIPS assembly**.

Industry Experience

Firmware Engineer Intern

EROAD Ltd

Nov 2023 – Feb 2024

Auckland, NZ

- Writing **C++ RTOS application** service with **GoogleTest** unit & component tests
- Developed a 'highly polished internal support tool' that **reduced 4+ hours**-worth of work to **less than 2 minutes**
- Implemented **REST API** business logic to facilitate asynchronous **remote file retrieval** from in-field devices
- Produced **security architecture**, threat modelling, and data flow diagrams to identify & secure attack vectors

Embedded Software Engineer Intern

Windcave Ltd

Nov 2022 – Mar 2023

Auckland, NZ

- Writing **C firmware** on STM32U585 **ARM** board
- Performed **rapid prototyping** of external **QSPI and OSPI** flash memories to inform hardware revision
- Implemented a **FreeRTOS** graphical Point-of-Sale system prototype on a Windcave payment terminal to satisfy **long-outstanding customer demand**

Project Experience

algovision

docs.jamesnzl.xyz/algovision

2023 –
Personal Project

- **Self-directed** project to build a **algorithm visualisation tool** in hardware
- **Full design process**, parts selection, and **board bring-up**
- USB Power Delivery, custom LED matrix display, STM32U575 **ARM Cortex-M33** firmware

- ▶ Git and GitHub
- ▶ LTspice
- ▶ STM32CubeMX
- ▶ Figma
- ▶ Altium Designer
- ▶ MATLAB

Pathfinding Robot

docs.jamesnzl.xyz/compsys301-pathfinding-robot

2023
The University of Auckland

- **Pathfinding robot** I designed in a **group of four**
- **Top team** out of all **23 teams** across the computer engineering cohort
- Analogue **circuit & PCB** design, time- & frequency-domain **signal analysis**, using a **PSoC 5LP**, pathfinding algorithms, and motor **control systems**

- ▶ Git and GitHub
- ▶ LTspice
- ▶ PSoC Creator
- ▶ MATLAB
- ▶ Altium Designer

Smart Energy Monitor

cs209.jamesnzl.xyz

2022
The University of Auckland

- **Smart energy monitor** I designed in a **group of four**
- **Lecturer's Choice** for **top team** out of all **40 teams** across the electrical & computer engineering cohort
- Analogue **circuit & PCB** design, signal conditioning, using an **ATmega328PB**, writing **firmware** drivers, and UART & **Bluetooth** communication

- ▶ Git and GitHub
- ▶ Microchip Studio
- ▶ Altium Designer
- ▶ LTspice
- ▶ Proteus VSM

Other Projects More projects can be found on my [GitHub profile](#).

Achievements

Dean's Honours List

auckland.ac.nz

2022, 2023
Faculty of Engineering

Awarded to students who are either placed in the top 5% of their Engineering study in their discipline and part, and/or have attained a GPA of at least 8.25 from their enrolled Engineering courses for that year.

First in Course Awards

auckland.ac.nz

2021, 2022, 2023
Faculty of Engineering

First in Course Awards are given each semester to students who have achieved the highest overall mark in a particular taught course.

- COMPSYS 301: **Hardware Firmware Systems Design**
- COMPSYS 303: **Microcomputers and Embedded Systems**
- COMPSYS 209: **Analogue and Embedded Firmware Design**
- ENGGEN 131: Introduction to **Engineering Computation and Software Development**

Other

- Bayonet of Honour — *City of Auckland Cadet Unit*
- Top of Course Award — *New Zealand Cadet Forces*
- School Prefect and Deputy House Captain
- First in Level 3 Calculus
- First in Level 2 Physics
- First in Level 2 Programming

Pre-2021

Passions

Outdoors I have a deep love for the outdoors, and find it an amazing outlet to recharge my batteries.

Teaching I love crafting intuitive explanations for difficult, technical concepts—and seeing the lightbulb moment.

Te Ao Māori I am passionate about our indigenous culture & language—I achieved Excellence in my NCEA Level 3 Te Reo Māori examinations, and maintain involvement with Te Whānau o Te Puna at Westlake Boys' High School.

Youth Development I now volunteer as an Officer Cadet in the New Zealand Cadet Forces, after 5 years as a cadet with 17 months as a senior Cadet Warrant Officer Class II.
